

Synergy Level 2: Rule Execution

textual context

Rule 1: Count the number of people wearing a visible bracelet on either wrist. Rule 2: Count the number of people wearing a visible hair accessory. Sum these two counts to get the final score."

visual context

Question:

What is the final score after applying the rules to the image?

Options:

A: 1; B: 2; C: 3; D: 4

o3: Step 1 – Identify people wearing a visible bracelet \n• The person on the left (younger woman) has a blue bracelet on her right wrist → count = 1 \n• The person on the right (older woman) has a watch but no bracelet → still 1 \n\nTotal with bracelets = 1\n\nStep 2 – Identify people wearing a visible hair accessory \n• Neither person is wearing a hair band, clip, scrunchie, etc. → count = 0 \n\nTotal with hair accessories = 0\n\nStep 3 – Add the two counts \n1 (bracelets) + 0 (hair accessories) = 1\n\n\boxed{A}

Ground Truth: B: Position 2
