GPT-4o: To determine if the sentence is grammatically acceptable, let's break it down:\n\n1. ****Identify the main clause**:** \n - \"There were several old rocks songs\" \n - This part is grammatically correct.\n\n2. ****Identify the relative clause**:** \n - \"that she and I were the only two who knew\" \n - This part aims to describe the songs.\n\n3. ****Check for subject-verb agreement**:** \n - In the relative clause, \"she and I\" is a compound subject, and \"were\" is the correct verb form.\n\n4. ****Check for correct use of pronouns**:** \n - \"she and I\" is used correctly as the subject of the clause.\n\n5. ****Meaning and coherence**:** \n - The sentence intends to convey that \"she and I\" were the only ones who knew the songs. However, there is a structural issue that affects clarity. The sentence needs a clearer connection or restructuring to make sense logically.\n\nThe phrase \"old rocks songs\" seems to have a typo. It should likely be \"old rock songs\".\n\nBecause of these issues, the sentence, as it stands, is not entirely grammatically acceptable.\n\n\\boxed{B}
